

The **Spirit Fitness Rehab 7.0T Treadmill** is a premium rehabilitation treadmill, ideal for medical environments and physical therapy. Here's a concise overview of its key features and specifications:

Key Features:

- **Incline/Decline:** Adjustable from -10% to 15%, in precise 0.5% increments.
 - **Motor:** Powerful 3.0 HP with forward and reverse walking capabilities.
 - **Walking Surface:** Large 22" x 60" belt with safety markings and self-lubricating deck.
 - **Handrails:** Adjustable-height, full-length handrails for enhanced stability and safety.
 - **Programs:** Multiple preset and customizable programs, including therapy-specific options.
 - **Speed Range:** -3 to 10 MPH with 0.1 MPH increments for bidirectional exercises.
 - **Heart Rate Monitoring:** Wireless 5 KHz receiver (devices not included).
 - **User Interface:** Intuitive LED console with clear display and controls.
-

Safety and Convenience:

- **Safety:** Full-length handrails and 4.5" ground-to-step height for accessibility.
 - **Stability:** Built-in EMC filter and current leakage protection.
 - **Comfort:** Built-in cooling fan, tablet holder, reading rack, and dual cup holders.
 - **Portability:** Transportation wheels for easy movement.
-

Specifications:

- **Dimensions:**
 - Assembled: 94.8" L x 48.7" W x 57.5" H
 - Box (Carton A): 88.6" L x 36" W x 21.7" H
 - Box (Carton B): 62.6" L x 35" W x 11" H
 - **Weight:**
 - Item Weight: 383 lbs
 - Box Weight: 418 lbs
 - **User Capacity:** Maximum weight capacity of 440 lbs.
 - **Warranty:** 5 years on parts, 1 year on labor (U.S. only).
-

Why Choose the 7.0T?

- **Optimized Rehabilitation Outcomes:** Fine-tuned settings and versatile programming for individualized therapy plans.
- **Dynamic Training Experience:** Front and rear motors simulate realistic uphill and downhill exercises.
- **Enhanced Stability:** Ideal for patients with mobility or balance concerns.
- **Durability:** Robust design for commercial therapy settings.

This treadmill is tailored for advanced rehabilitation, making it a reliable choice for both clinicians and therapy patients aiming for optimal recovery outcomes.

Spirit Fitness Rehab 4.0T Treadmill

The **Spirit Fitness Rehab 4.0T Treadmill** is a state-of-the-art rehabilitation tool designed to deliver exceptional customization, safety, and durability. Specifically crafted for physical therapy and advanced fitness requirements, it combines innovative features with a robust design.

Key Features:

- **Incline/Decline Range:** Adjusts from -5% to 15% in precise 0.5% increments.
 - **Motor:** Reliable 4.0 HP motor ensures consistent performance.
 - **Speed Range:** 0.3 to 12 MPH with 0.1 MPH adjustments for fine-tuned control.
 - **Walking Surface:** Generous 22" x 60" deck with safety markings and a self-lubricating belt.
 - **Handrails:** Full-length rails offer enhanced stability and support.
 - **Programs:** Includes 20 preset options, such as manual, interval, custom, VO2, and heart rate-based programs.
 - **Connectivity:** Bluetooth, ANT+ FTMS, and G-FIT for advanced data tracking and real-time monitoring.
 - **Convenience Features:** Equipped with a cooling fan, USB charging port, cup holders, and a tablet holder for added ease of use.
-

Performance and Customization:

- **Bidirectional Speed Range:** Allows precise adjustments for therapeutic and fitness activities.
- **Dynamic Training Options:** Front and rear motors simulate realistic uphill and downhill walking to engage specific muscle groups.

- **Quick Access Controls:** Direct speed (2, 5, 8 MPH) and incline buttons (-3%, 3%, 6%) for instant adjustments.
-

Safety and Stability:

- **Handrails:** Full-length design provides vital support for users with mobility or balance challenges.
 - **Step-Up Height:** 7.75", making it easily accessible for most users.
 - **Construction:** Durable frame with built-in EMC filter for current leakage protection.
-

Console and Display:

- **Display Type:** Intuitive LED with a 20-character message window for easy tracking.
 - **Program Options:** Features fitness tests, interval training, custom programs, and heart rate tracking to accommodate diverse user needs.
 - **Connectivity:** Bluetooth and ANT+ FTMS integration for seamless monitoring (heart rate monitoring devices not included).
-

Specifications:

- **Power:** 100-120V outlet.
 - **Motor:** 4.0 HP.
 - **Speed Range:** 0.3 - 12 MPH.
 - **Incline/Decline:** -5% to 15%, adjustable in 0.5% increments.
 - **Running Surface:** 22" x 60".
 - **Step-Up Height:** 7.75".
 - **Console:** Includes manual, fitness tests, custom, interval, and heart rate-based programs.
 - **Convenience Features:** USB charging port, cooling fan, dual cup holders, tablet holder, and transportation wheels.
-

Dimensions and Weight:

- **Assembled Dimensions:** 84.1" L x 61.6" W x 35.7" H.
- **Box Dimensions:** 89.7" L x 38.1" W x 20.3" H.
- **Item Weight:** 434 lbs.
- **Box Weight:** 487 lbs.

- **Max User Capacity:** 440 lbs.
-

Warranty:

- **Parts:** 5 years (U.S. warranty).
 - **Labor:** 1 year.

Landice L8 Rehabilitation Treadmill

For over 40 years, Landice has been a trusted name in rehabilitation, physical therapy, and sports conditioning. The **Landice L8 Rehabilitation Treadmill** is designed to handle everything from post-operative recovery to high-performance athlete training. Known for its exceptional versatility, this treadmill is the ultimate solution for rehabilitation centers and physical therapy programs.

Key Features:

- **Powerful Motor:** Equipped with a 4.0 HP continuous-duty motor capable of speeds from 0.1 to 12.0 MPH, offering precision control for all users.
 - **Incline Range:** Adjustable elevation up to 15% for customized therapy sessions.
 - **Robust Construction:** Rust-free aluminum frame with a 1-inch-thick reversible deck for durability and longevity.
 - **High Weight Capacity:** Supports users up to 500 lbs, making it suitable for a wide range of patients.
 - **Spacious Running Surface:** Extra-large 22" x 63" treadbelt for ample room during rehabilitation exercises.
-

Safety and Support:

- **Starting Speed:** Zero starting speed for safe and gradual progressions.
- **Extended Handrails:** Parallel medical handrails ensure stability and support for users with mobility challenges.

- **Leakage Protection:** Includes a 300 micro-amp isolation leakage kit for added safety in medical environments.
 - **Shock Absorption:** The **VFX Shock Absorption System** reduces impact by being five times softer than grass, minimizing the risk of injury.
-

User Interface:

- **Rehabilitation Control Panel:** Features an easy-to-read LCD display with the following:
 - **Numeric Keypad:** For quick and precise data entry.
 - **Built-in Programs:** Includes 5 preset, 5 user-defined, time/distance goals, and fitness tests (Balke and Firefighter).
 - **Heart Rate Monitoring:** Offers interactive contact heart rate and a heart-rate control program.
 - **Express Keys:** Quick-access speed and incline controls.
 - **English/Metric Options:** Displays data in user-preferred configurations.
-

Additional Features:

- **Treadbelt:** Four-ply, durable running surface for smooth operation.
 - **Rollers:** 2.5" diameter, 14-lb steel rollers for consistent performance.
 - **Cooling Features:** Integrated cooling fan and accessory rack for user convenience.
 - **Optional Features:** Reversible treadbelt for downhill walking.
-

Specifications:

- **User Weight Capacity:** 500 lbs.
 - **Speed Range:** 0.1 to 12 MPH.
 - **Incline:** 0% to 15%.
 - **Construction:** Rust-free aluminum frame with cast aluminum side rails and end caps.
 - **Deck Thickness:** 1-inch reversible.
 - **Dimensions:**
 - **Unit Dimensions:** 36" W x 83" L x 61.5" H.
 - **Running Surface:** 22" W x 63" L.
 - **Step-Up Height:** 7.5".
 - **Power Options:** 110 VAC, 60Hz, 15A (standard) or 220 VAC, 60Hz, 15A (optional).
-

Why Choose the Landice L8 Rehabilitation Treadmill?

- **Durability:** Designed with premium materials to withstand rigorous use.
- **Comfort:** Industry-leading shock absorption system ensures smooth, low-impact sessions.
- **Versatility:** Perfect for both rehabilitation and sports training.
- **Safety:** Built with medical-grade features to prioritize user safety.

The **Landice L8 Rehabilitation Treadmill** is an exceptional addition to any rehabilitation or physical therapy facility, providing unmatched performance, safety, and reliability.

Landice L7 RTM Rehabilitation Treadmill

The **Landice L7 RTM Rehabilitation Treadmill** is specifically designed for rehabilitation, physical therapy, and sports conditioning. With its zero starting speed and extended parallel medical handrails, it provides safety and versatility for a wide range of users. Optional features, such as a reversing belt and orthopedic suspension system, make it even more adaptable for various therapeutic needs.

Key Features:

- **Motor:** 4.0 HP continuous-duty motor with speeds ranging from 0.1 to 12.0 MPH for precise control.
 - **Incline Range:** Elevation adjustable up to 15% for customizable therapy sessions.
 - **Running Surface:** 20" x 58" four-ply treadbelt, offering ample space and durability.
 - **Weight Capacity:** Supports users up to 400 lbs, accommodating various patient needs.
 - **Zero Starting Speed:** Enables gradual progression for safe rehabilitation.
-

User-Friendly Features:

- **Landice Control Center:** Comes with an integrated accessory rack, cooling fan, and water bottle holder for added convenience.
- **Rehabilitation Control Panel:** Features a versatile LCD display with:
 - **Numeric Keypad:** For quick data input.
 - **Program Variety:** Includes 5 built-in programs, 5 user-defined options, time and distance goals, and 2 fitness tests (Balke and Firefighter).
 - **Heart Rate Monitoring:** Includes interactive contact heart rate and heart-rate-controlled programs.
 - **English/Metric Display:** Adapts to user preferences.

- **Direct Speed and Incline Controls:** Quick-access keys for effortless adjustments.
-

Safety and Comfort:

- **Handrails:** Extended parallel medical handrails ensure stability for users with mobility challenges.
 - **VFX Shock Absorption System:** Engineered to reduce impact, offering a surface that's five times softer than grass for improved joint protection.
 - **Leakage Protection:** 300 micro-amp isolation leakage kit enhances safety in clinical environments.
 - **Optional Features:** Includes reversing treadbelt for downhill walking.
-

Durability and Construction:

- **Frame:** Rust-free aluminum with cast aluminum side rails and end caps for longevity.
 - **Deck:** 1-inch thick reversible deck for extended use.
 - **Rollers:** 2.5" diameter, 14-pound steel rollers ensure smooth operation.
 - **Thrust Elevation Motor:** 1,000-pound thrust capacity for reliable performance.
-

Specifications:

- **User Weight Capacity:** 400 lbs.
 - **Speed Range:** 0.1 to 12 MPH.
 - **Incline Range:** 0% to 15%.
 - **Dimensions:**
 - **Unit Dimensions:** 36" W x 76.5" L x 60" H.
 - **Running Surface:** 20" W x 58" L.
 - **Step-Up Height:** 5.5".
 - **Power Options:** 110 VAC, 60Hz, 15A (standard) or 220 VAC, 60Hz, 15A (optional).
-

Warranty:

- **Residential Use:** Lifetime on parts, 5 years on console, and 1 year on labor.
-

The **Landice L7 RTM Rehabilitation Treadmill** is an excellent choice for physical therapy centers, offering advanced safety features, superior shock absorption, and reliable performance. Its customizable options and robust design make it suitable for a variety of therapeutic and conditioning needs.
