Top Tier Shoulder Presses: Nautilus, True Fitness, Hoist

Shoulder Press

Nautilus ONE Shoulder Press

59 x 64 x 62 in

- Converging arms minimizes shoulder impingement
- Multiple grips provide hand position options
- Standard 250lbs (125kg) patented dial weight selection technology
- Machine Weight 854lbs/387kg

TRUE Fitness FUSE-0700 Shoulder Press

57 x 45 x 58 in

- Unilateral arms converge to maximize articulation of the shoulder
- Five position seat uses four-bar linkage with gas cylinder assist for stable, low friction adjustments.
- Weight Stack Options 170lbs / 77kg; 250lbs / 113kg
- Machine Weight 480lbs / 218kg; 560lbs / 254kg (Based on Weight Stack Option)

HOIST CL-3501 Shoulder Press

55 x 50 x 50.75 in

- Multiple grip handles
- Counter-balanced arm
- Gas-spring assisted seat adjuster with large easy to reach handle
- Weight Stack Options 200lbs/90.71kg
- Machine Weight 568lbs/258kg

Nautilus Impact Shoulder Press

64 x 53 x 60 in

- User-friendly weight stack selection
- 5 lb incremental weight system for optimal progression
- Weight Stack Options 260lbs/130kg
- Machine Weight 530lbs/241kg

Nautilus Instinct Shoulder Press

58 x 53 x 55 in

- Multi-position hand grips
- Adjustable seat pad with "easy up" ratcheting adjustment
- Weight Stack Options 190lbs/86kg
- Machine Weight 460lbs/209kg

True Fitness Line Shoulder Press

37 x 55 x 57 in

- 3-grip positions accommodate a wide range of users and allow exercise variation
- 5-position seat adjusts to accommodate a wide range of users
- Standard Weight Stack 170lbs / 77kg 250lbs / 113kg
- Machine Weight 441lbs / 200kg 521lbs / 236kg

Top Tier Chest Press: Nautilus, True Fitness, Hoist

Chest Press

Nautilus ONE Chest Press

58 x 64 x 75 in

- Converging movement arms with multiple hand position options for a variety of movement options
- Backpad adjusts for desired amount of pre-stretch
- Standard 250lbs (125kg) patented dial weight selection technology, with a 5lbs (2.5kg) incremental weight switch
- Optional 1lb or 0.5kg increments weight switch available on all machines
- Machine Weight 852lbs/386kg

TRUE Fitness Palladium Series SPL-0900 Chest Press

42 x 56 x 74 in

• 8 position seat adjustable while seated or standing uses premium grade linear bearings and gas cylinder assist for stable, low friction adjustments
• Unique 4 position adjustable seat back allows users to select range of motion best suited to their individual needs
• Weight Stack Options : 200lbs / 91kg 260lbs / 118kg 320lbs / 145kg
• Machine Weight 481lbs / 219kg, 458lbs / 208kg

TRUE Fitness FUSE-0900 Chest Press

57 x 45 x 58 in

• Five position seat uses four-bar linkage with gas cylinder assist for stable, low friction adjustments
• Unilateral arms converge to maximize articulation of the shoulder and allow for a complete range of motion
• Weight Stack Options 170lbs / 77kg; 250lbs / 113kg
• Machine Weight 473lbs / 215kg; 553lbs / 251kg (Based on Weight Stack Option)

True Fitness Line Chest Press

37 x 55 x 57 in

• Dual hand grips accommodate a wide range of users and allow exercise variation
• 5-position seat adjusts to accommodate a wide range of users
• Weight Stack Options 170lbs / 77kg 250lbs / 113kg
• Machine Weight 430lbs / 195kg 510lbs / 231kg

HOIST CL-3301 Chest Press

51.50 x 51.75 x 50.00 in

• Foot assist to help get into a starting position and complete those final reps
• Gas-spring assisted seat adjuster with large easy to reach handle
• Weight Stack Options 300lbs/136kg
• Machine Weight 613lbs/278kg

Nautilus Impact Chest Press

50 x 52 x 60 in

• User-friendly weight stack selection
• Ratcheting seat adjustment
• Weight Stack 260lbs (130kg)
• Machine Weight 545lbs (248kg)

Top Tier Leg Press Machines: Nautilus, True Fitness, Hoist

Leg Press

Nautilus Inspiration Leg Press

74 x 54 x 64 in

- Extra-large non-slip platform
- Foot platform features beveled lower edge for calf training
- Urethane seat rollers for smooth, quiet operation
- Weight Stack: 400lbs (200kg)
- Machine Weight 1,227lbs (558kg)

TRUE Fitness Force Dual SD-1003 Leg/Calf Press

89.5 x 46 x 57 in

• 12 position contoured back pad with lumbar support wings and integrated head pad
• Oversized rubber-coated foot platform accommodates a wide range of users
• Weight Stack 255lbs / 116kg
• Machine Weight 619lbs / 281kg

True Fitness Line Dual Leg/Calf Press

71 x 41 x 65 in

• Contoured back pad provides low back support throughout the entire range of motion
• Oversized, non-skid foot platform for exercise variation
• Weight Stack Options 170lbs / 77kg 250lbs / 113kg
• Machine Weight 500lbs / 227kg 580lbs / 263kg

Leg Press

Nautilus ONE Leg Press

72 x 51 x 57 in

• Maximum muscle involvement with minimum knee and back stress in a compact footprint
• Four-bar linkage technology controls position and angle of foot platform and provides optimal biomechanics
• Standard 425lbs (200kg) patented dial weight selection technology, with a 5lbs (2.5kg) incremental weight switch
• Machine Weight 1,332lbs/604kg

TRUE Fitness FUSE-0300 Leg Press

46 x 74 x 66 in

• Nine position seat assembly adjusts easily using ergonomically designed paddle handle
• Large molded platform angled at 10° maximizes hip extension while maintaining neutral ankle position
• Weight Stack Options 210lbs / 95kg, 310lbs / 141kg
• Machine Weight 684lbs / 311kg, 784lbs / 356kg (Based on Weight Stack Option)

HOIST HF 4357 Leg Press/Hack Squat

83.25 x 30.50 x 56.50 in

• Adjustable platform for proper positioning throughout exercises
• Dual purpose back pad attaches for both hack squat and leg press exercise positions
• The max number of standard 45-pound plates that can be loaded is 12. (12 X 45 bs = 540lbs)
• Machine Weight: 392lbs (178kg)

Top Tier Leg Curl Machines: Nautilus, True Fitness, Hoist

Leg Curl

Nautilus ONE Seated Leg Curl

64 x 52 x 49 in

- Two biomechanically correct movements in one machine, each with individual strength curve
- Weight tower position provides user privacy and easy accessibility
- Adjustable range of motion for customization to individual user needs
- Weight Stack: 255lbs (115kg)
- Machine Weight 855 lbs (387kg)

TRUE Fitness Force SD-1000 Leg Extension/Leg Curl

57.5 x 47.5 x 57 in

• Multi-position contoured back pad with lumbar support wings and integrated head pad utilizes one-way ratchet for easy adjustment
• 4-position ankle pad adjusts easily to accommodate wide range of users
• Fixed shin pad provides stability during Leg Curl exercise and eliminates need for additional adjustment
• Weight Stack Options 175lbs / 79kg or 255lbs / 116kg
• Machine Weight 517lbs / 234kg or 597lbs / 271kg

TRUE Fitness FUSE-0200 Seated Leg Curl

46 x 74 x 66 in

• Five position seat uses four-bar linkage with gas cylinder assist
• Four position thigh pad assembly accommodates a wide range of users
• Weight Stack 210lbs / 95kg or 310lbs / 141kg
• Machine Weight 684lbs / 311kg or 784lbs / 356kg (Depends on weight stack)

Nautilus Impact Leg Curl

63 x 72 x 97 in

- User-friendly weight stack selection
- Ratcheting seat adjustment
- Rounded lumbar extension pad
- Gravity assisted positioning
- Weight Stack Options 180lbs (90KG)
- Machine Weight 516lbs (234KG)

Hoist HD-3400 Dual Leg Extension/Leg Curl

51 x 55 x 57 in

• Eight back pad adjustments for varying leg lengths
• Multiple range-of-motion adjustments for both exercises
• Self-aligning roller pad automatically adjusts to reduce potential stress of the ankle joints
• Weight Stack Options Standard: 215lbs (98kg) or Heavy Stack OPTION: 240lbs (109kg)
• Machine Weight 566lbs. (257kg.) or 591lbs (268kg)

TRUE Fitness FUSE-1800 Horizontal Leg Curl Machine

62 x 40 x 57 in

• Chest and thigh pads angled at 15º for proper alignment during exercise movements
• 5 position ankle pad to accommodate a wide range of users
• Ergonomically located handles with contoured grips to provide more support during exercise
• Weight Stack Options 170lbs / 77kg or 250lbs / 113kg
• Machine Weight: 396lbs / 180kg or 476lbs / 216kg

Top Tier Leg Extension Machines: Nautilus, True Fitness, Hoist

Leg Extension

Nautilus ONE Leg Extension

53 x 52 x 49 in

- Maximum range extension while maintaining proper knee alignment
- Leg pad adjustment accessible from seated position for easy adjustment
- Reclined seat angle promotes full range quadriceps contraction
- Weight Stack: 255lbs or 115kg
- Machine Weight 829lbs or 376kg

TRUE Fitness Force SD-1000 Leg Extension/Leg Curl

57.5 x 47.5 x 57 in

• Multi-position contoured back pad with lumbar support wings and integrated head pad utilizes one-way ratchet for easy adjustment
• 4-position ankle pad adjusts easily to accommodate wide range of users
• Fixed shin pad provides stability during Leg Curl exercise and eliminates need for additional adjustment
• Weight Stack Options 175lbs / 79kg or 255lbs / 116kg
• Machine Weight 517lbs / 234kg or 597lbs / 271kg

TRUE Fitness FUSE-0100 Leg Extension

46 x 46 x 58 in

• Five position seat uses four-bar linkage with gas cylinder assist
• 20° fixed angle contoured back pad provides support and proper alignment during exercise
• Ergonomically located handles with contoured grips for proper user support and alignment
• Weight Stack 170lbs / 77kg or 250lbs / 113kg
• Machine Weight 405lbs / 184kg or 485lbs / 220kg
(Depends on weight stack)

Nautilus Impact Leg Extension

57 x 38 x 60 in

• User-friendly weight stack selection
• Ratcheting seat adjustment
• Rounded lumbar extension pad
• Gravity assisted positioning
• Weight Stack Options 260lbs (130kg)
• Machine Weight 530lbs (241kg)

Hoist HD-3400 Dual Leg Extension/Leg Curl

51 x 55 x 57 in

• Eight back pad adjustments for varying leg lengths
• Multiple range-of-motion adjustments for both exercises
• Self-aligning roller pad automatically adjusts to reduce potential stress of the ankle joints
• Weight Stack Options Standard: 215lbs (98kg) or Heavy Stack OPTION: 240lbs (109kg)
• Machine Weight 566lbs. (257kg.) or 591lbs (268kg)

TRUE FITNESS LINE LEG EXTENSION

65 x 44 x 57 in

• 5 position back pad to accommodate a wide range of users
• Self-aligning ankle pad eliminates adjustment while providing proper support throughout the entire range of motion.
• Weight Stack Options 170lbs / 77kg 250lbs / 113kg
• Machine Weight: 423 lbs / 192 kg 503 lbs / 228 kg

Top Tier Treadmill Machines: True Fitness, StarTrac, Spirit Fitness

True Fitness Alpine Runner Incline Trainer

- TRUE 5 HP AC Max Drive: Powerful and reliable motor for superior performance.
- Incline/Decline Range: Versatile -3%-30% range for varied workouts.
- Robust Frame: Heavy-gauge steel construction ensures durability.
- Wide Speed Range: From 0.5-12 MPH (0.8-19 KPH) to accommodate all users.
- Wireless Heart Rate Monitoring: Convenient Polar® technology for accurate tracking.

StarTrac 10 Series FreeRunner w/ LCD

- HexDeck Technology: Aluminum deck with hexagonal suspension for cushioning and responsiveness.
- Hot Bar® Accessibility: Easy-to-reach controls and contact heart rate grips for user convenience.
- Impressive Performance: Up to 20% incline and 15 mph speed for challenging workouts.
- Wide Belt: 21.5" width provides ample running space.
- High Capacity: Supports users up to 500 lbs (227 kg) for durability and versatility.

Star Trac 8 Series TRX Treadmill

- OpenHub™ Console Options: Choose between 10", 19", and LCD versions for interactive features.
- Quick Keys: 8TRx LCD console with convenient speed and elevation controls.
- Bluetooth Connectivity: Track workout data wirelessly for performance analysis.
- Soft Trac® Cushioning: Offers maximum shock absorption for a comfortable run.
- High Performance: 20% max incline, 15 mph max speed, and 500 lb user weight capacity.

Spirit Fitness CT900 Treadmill

- Console: Premium LED display with built-in fan and reading rack.
- Feedback: Tracks time, distance, speed, elevation, calories, and more.
- Programs: Offers manual, hill, 5K, HR, fat burn, and interval options.
- Heart Rate: Supports contact and telemetric monitoring.
- Motor: Powerful 5.0 HP AC drive system.

Spirit Fitness CT900ENT Treadmill

- Console: 15.6” touchscreen display with TV tuner, WiFi, Bluetooth, and USB port.
- Feedback: Tracks time, distance, speed, elevation, calories, and heart rate.
- Programs: Offers interval, 5k, 10k, hill, fat burn, and custom options.
- Heart Rate: Supports contact and telemetric monitoring.
- Motor: 5.0 HP AC drive system for speeds up to 12 mph and inclines up to 15%.

BodyCraft T1000 Treadmill

- 5.0HP AC Motor: Provides powerful and reliable performance for various workout intensities.
- Speed Range: Offers a wide speed range from 0.5 to 13 mph for versatile training options.
- Incline Range: Adjustable incline range from 0 to 15% to simulate different terrains and intensify workouts.
- Running Belt: Large 22”W x 62”L commercial-grade belt for comfortable and spacious running surface.
- Maximum User Weight: High maximum user weight capacity of 500 lbs, ensuring durability and suitability for a wide range of users.

Top Tier Rehabilitation Treadmills: Spirit Fitness & Landice

Spirit Fitness Rehab 7.0T Treadmill

(LWH): 94.8" x 48.7" x 57.5"

- Versatile Incline/Decline: -10% to 15% range with 0.5% increments for precise rehabilitation and training adjustments.
- Rehabilitation-Focused Design: Full-length adjustable-height handrails and bidirectional speed (-3 to 10 MPH) for safety and versatility.
- Spacious & Durable Deck: 22” x 60” belt with safety markings, self-lubricating deck, and 3.0 HP motor for smooth operation.
- Advanced Console: LED display with preset/customizable programs, wireless heart rate monitoring, and a 3-speed cooling fan.

Spirit Fitness Rehab 4.0T Treadmill

(LWH): 84.1" x 61.6" x 35.7"

- Versatile Incline/Decline: -5% to 15% range with 0.5% increments for tailored rehabilitation and training.
- Powerful Performance: 4.0 HP motor, 0.3–12 MPH speed range, and direct speed/incline buttons for precision.
- Spacious & Safe Design: 22” x 60” self-lubricating belt with full-length handrails for stability and support.
- Enhanced Connectivity: Bluetooth, ANT+, FTMS, and G-FIT for advanced progress tracking and real-time monitoring.

Landice L8 RTM Rehabilitation Treadmill

(LWH): 83" x 36" x 61.5"

- Rehabilitation-Ready: Zero starting speed, 15% incline, and extended medical handrails.
- Powerful Build: 4 HP motor, 22” x 63” surface, supports up to 500 lbs.
- Advanced Console: Numeric keypad, programs, and heart-rate monitoring.
- Impact Reduction: VFX system, five-times softer than grass for comfort.

Landice L7 RTM Rehabilitation Treadmill

(LWH): 76.5" x 36" x 60"

- Rehabilitation-Ready: Zero start, medical handrails, and optional reversing belt.
- Durable Build: 4 HP motor, 20” x 58” surface, supports 400 lbs.
- Advanced Console: LCD, programs, and heart-rate monitoring.
- VFX Absorption: Softer than grass for comfort and safety.

Top Tier Rehab Steppers: SciFit & Spirit Fitness

SciFit Fitness StepOne Recumbent Premium Seat Stepper

(LWH): 68" x 30" x 48"

- User-Defined Stride Length: 2" to 11.5" with Intelli-Stride™ feedback for safe progressions.
- 191 Resistance Levels: 20 levels adjustable in 0.1 increments, starting at 6 watts for low resistance.
- Accessibility: Direct wheelchair access, step-through design, and integrated grab bar for easy entry.
- Intelli-Fit™ Console: 7" full-color touch screen, stride measurement, METs, ascent tracking, and USB workout results export.

SciFit Fitness StepOne Recumbent Bariatric Seat Stepper

(LWH): 68" x 30" x 48"

- User-Defined Stride Length: 2" to 11.5" with Intelli-Stride™ feedback for safe progressions.
- Bariatric Seat: 600 lb. user weight capacity, wider seat, and side handles for added comfort and safety.
- Direct Wheelchair Access: ADA-compliant step-through seating with 360° Therapist Assist Pedals for easy adjustments.
- Intelli-Fit™ Console: 7" full-color touch screen with 191 resistance levels, stride length measurement, and USB workout export.

SciFit Fitness StepOne Recumbent Standard Seat Stepper

(LWH): 68" x 30" x 48"

- User-Defined Stride Length: 2" to 11.5" with Intelli-Stride™ feedback for safe progressions.
- 191 Resistance Levels: Adjustable in 0.1 increments, starting at 6 watts for low resistance.
- Standard Seat: Forward/back adjustability, custom ergonomic design, and 500 lb. user weight capacity.
- Intelli-Fit™ Console: 7" full-color touch screen with exercise feedback, USB data export, and multiple workout programs.

Spirit Medical MS300 Stepper

(LWH): 67" x 30" x 48"

- Multiple Seat Adjustments: 8-position swivel, 6-position recline, and 18 fore/aft positions for optimal patient positioning.
- Symmetry Monitoring: Measures bilateral power with graphical and numeric feedback for left/right comparison.
- Isokinetic Resistance Mode: Step speeds range from 10 to 210 steps/minute for controlled therapy.
- Cushioned Footplates: Oversized footplates with stabilization straps ensure comfort and support.

Spirit Fitness Rehab 7.5S Recumbent Stepper

(LWH): 77.6" x 33.5" x 46.5"

- ADA-Compliant: Direct wheelchair access for inclusive use.
- Adjustable Step Range: 1” to 12.5” with 20 levels of resistance for customized therapy.
- Supportive Seat: High-density foam seat with fore, aft, and recline angle adjustments.
- Cushioned Pedals: Large, supportive pedals for enhanced comfort and stability.

Spirit Fitness Rehab 7.0S Recumbent Stepper

(LWH): 67" x 30" x 48"

- Easy Access: 360-degree swivel seat with low step-over height for safe entry and exit.
- Adjustable Step Range: 1” to 12.5” for precise alignment and tailored therapy.
- 20 Levels of Resistance: Supports users of all mobility levels with bilateral movement.
- Quadrilateral Exercise Pattern: 1:1 arm and leg motion for balanced, customizable rehabilitation.

Top Tier Ergometers: SciFit Fitness

SciFit Fitness PRO2 Total Body Exerciser - Bariatric Seat

(LWH): 61" x 30" x 62"

- Versatile Rehab Tool: Upper, lower, or total body exercise with dependent motion for passive assistance.
- Accessible Design: Adjustable step-through, removable seat for wheelchairs, and bariatric seat option (600 lb capacity).
- Therapist-Friendly: 360° Therapist Assist Pedals and bi-directional motion for tailored rehab.
- Customizable: Adjustable cranks, very low starting resistance, and multiple accessory options.

SciFit Fitness PRO1 Upper Body Exerciser - Bariatric Seat

(LWH): 60" x 30" 77"

- Versatile Use: Can be used seated, standing, or for ground-based training.
- Adjustable Design: Tilt head, 4 arm crank settings, and step-through accessibility for all users.
- Bariatric Seat: Wider seat (600 lb capacity) with forward/back adjustability and integrated side handles.
- Therapist-Friendly: 360° Therapist Assist Pedals and wheelchair platform included.

SciFit Fitness PRO1 Upper Body Exerciser - Premium Seat

(LWH): 60" 30" 77"

- Versatile Use: Supports seated, standing, and ground-based training.
- Premium Seat: Adjustable in all directions, reclines, and supports up to 450 lbs.
- Accessible Design: Step-through frame with wheelchair platform included.
- Custom Motion: Adjustable tilt head and arm cranks with bi-directional exercise.

SciFit Fitness PRO1 Upper Body Exerciser - Standard Seat

(LWH): 60" x 30" 77"

- Versatile Use: Supports seated, standing, and ground-based training.
- Standard Seat: Forward/back adjustability, lumbar support, and 500 lb capacity.
- Accessible Design: Step-through frame and wheelchair platform included.
- Custom Motion: Adjustable tilt head and arm cranks with bi-directional exercise.

SciFit Fitness PRO2 Total Body Exerciser - Standard Seat

(LWH): 61" x 30" 62"

- Total Body Rehab: Supports upper, lower, or total body exercises with dependent motion for passive assistance.
- Accessible Design: Step-through frame and removable seat for wheelchair access.
- Standard Seat: Forward/back adjustability, lumbar support, and 500 lb capacity.
- Custom Motion: Adjustable cranks with 3 length settings and bi-directional exercise.

SciFit Fitness PRO1000 Upper Body Exerciser - Standard Seat

(LWH): 61" x 30" 62"

- Upper Body Focus: Adjustable arm cranks with 3 ROM settings and bi-directional exercise.
- Accessible Design: Step-through frame and removable seat for wheelchair access.
- Standard Seat: Forward/back adjustability, lumbar support, and 500 lb capacity.
- Wide Resistance Range: Very low starting resistance with 191 adjustable levels.

Top Tier Ergometers: SciFit, Keiser, First Degree, NOHrD

Keiser Fitness M7i Wheelchair-Accessible Total Body Trainer

(LWH): 48.5" x 27.75" x 44.75"

- Inclusive Design: Works with wheelchairs or standard chairs for versatile, low-impact workouts.
- Smooth & Measurable: Magnetic resistance with measurable parameters like METS, Watts, and Steps Per Minute.
- Real-Life Movement: 7-inch pedal stroke mimics stair climbing for functional training.
- Compact & Portable: Smallest footprint in its class with easy transportability.

SciFit Fitness PRO1000 Upper Body Exerciser - Bariatric Seat

(LWH): 61" x 30" 62"

- Upper Body Rehab: Adjustable arm cranks with 3 ROM settings and bi-directional exercise.
- Bariatric Seat: 5” wider, forward/back adjustable, supports up to 600 lbs.
- Accessible Design: Step-through frame and removable seat for wheelchair use.
- Custom Resistance: Very low starting resistance with 191 adjustable levels.

SciFit Fitness PRO1000 Upper Body Exerciser - Premium Seat

(LWH): 61" x 30" x 62"

- Upper Body Focus: Adjustable arm cranks with 3 ROM settings and bi-directional exercise.
- Premium Seat: Forward/back, up/down, 360° swivel, and recline with lumbar support; supports up to 450 lbs.
- Accessible Design: Step-through frame and removable seat for wheelchair access.
- Wide Resistance Range: Very low starting resistance with 191 adjustable levels.

First Degree Fitness E950 Medical UBE (Upper Body Ergometer)

(LWH): 71.26" x 40.16" x 58.27"

- Versatile Rehabilitation Tool: Bidirectional upper body cycling for seated, standing, or wheelchair use.
- Adjustable Fluid Resistance: 10 levels from feather-light to Olympic challenge, changeable on the fly.
- Customizable Ergonomics: Adjustable seat, crank height, crank length, and hand grip angle.
- Accessible Design: Removable seat with wheelchair ramp and platform for various users.

SciFit Fitness PRO2 Total Body Exerciser - Premium Seat

(LWH): 61" x 30" x 62"

- Total Body Rehab: Upper, lower, or total body exercises with passive assistance.
- Premium Seat: Adjustable in all directions, reclines, and supports 450 lbs.
- Accessible Design: Step-through frame and removable seat for wheelchairs.
- Custom Motion: Adjustable cranks and bi-directional exercise.

NOHrD WaterGrinder Walnut

(HWD): 47.25" x 43" x 31.5"

- Upper Body Focus: Simulates grinding motion to train arms, shoulders, chest, and back.
- Customizable: Adjustable cranks, hand positions, and seat for varied workouts.
- Interactive Monitor: Tracks performance with multiple training modes.
- Efficient Training: High-intensity sessions for quick upper body fatigue.

Top Tier Exercise Bikes: Landice & Spirit Fitness

Landice U9 ACHIEVE Upright Bike

(LWH): 44.56" x 24.72" x 58.11"

- Self-Powered: No electrical requirements with Eddy current magnetic braking system.
- Adjustable Seat: 12 height settings for user comfort.
- Resistance Range: 1-20 levels with 15 lb flywheel for smooth operation.
- Racing Style Handlebars: Includes contact heart-rate monitoring and resistance controls.

Landice R9 ACHIEVE Recumbent Bike

(LWH): 65.74" x 25.31" x 52.20"

- Step-Through Frame: Low step-over height for easy access.
- Resistance System: Eddy current magnetic braking with 1-20 levels.
- Seat Adjustment: Forward/backwards with 15 settings for personalized comfort.
- Self-Powered: No electrical requirements with self-balanced pedals and adjustable straps.

Spirit Fitness Rehab 7.0R Recumbent Bike

(LWH): 55.1" x 32.7" x 46.9"

- Numbered Seat and Pedal Adjustments: Ensures precise and repeatable setup.

Top Tier Multi-Gyms: True Fitness & Hoist

True Fitness MP4.0 - 4 Stack Multi-Gym

123 x 108 x 83.75 in

• Space-Saving Design: Combines five workstations into one compact unit for full-body workouts.
• Versatile Upper Body Options: Includes presses, rows, lat pulldown, triceps, and abdominal exercises with quick, user-friendly adjustments.
• Adjustable Cable System: Pivoting dual pulleys with up to 12’ cable travel for diverse movements and athletic training.
• Leg Press & Curl Stations: Ergonomic design with customizable settings for optimal range and support.

Hoist Fitness H4400 4 Stack Multi Gym

103 x 95 x 83.50 in

• Multi-Station Design: Combines leg press, adjustable cable column, rigid arm pulldown, and chest press/mid row/leg extension/standing leg curl within 68 square feet.
• User-Friendly Adjustments: Self-aligning handles and patented range-of-motion adjustment ensure seamless customization for all users.

• Enhanced Safety & Comfort: Rigid arm lat pulldown with wide head clearance, dual-adjusting back pad for body positioning, and an integrated cam for consistent resistance in leg exercises.

True Fitness MP3.0 - 3 Stack Multi-Gym

96 x 163 x 83.75 in

• User-Friendly Design: Attractive weight stack enclosures, color-coded instructions, and quick-adjustment knobs ensure ease of use and safety.

• Versatility: Supports a wide range of exercises including presses, rows, curls, lat pulldown, and abdominal crunch with adjustable seat, back pad, and ankle pad.
• Durability: Constructed with heavy-duty components like precision steel frames, nylon-coated cables, reinforced pulleys, and magnetic selector pins.

• Comfort & Aesthetics: Features ergonomic handgrips, high-density foam pads, and durable powder-coated finishes for a sleek and reliable machine.

True Fitness MP2.0 - 2 Stack Multi-Gym

96 x 73 x 84 in

• Compact & Versatile Design: Attractive weight stack enclosures and dual stacks support a wide range of exercises, including presses, rows, curls, and crunches.
• User-Friendly Adjustments: Color-coded labels and quick-adjust knobs ensure accurate positioning, while self-adjusting pads provide optimal support.

• Durable Construction: Features precision steel frames, US-made lubricated cables, and reinforced pulleys for long-lasting performance.

• Comfort & Style: Ergonomic handgrips, high-density foam upholstery, and a sleek powder-coated finish for durability and aesthetics.

Hoist Fitness H2200 2 Stack Multi Gym

90 x 106 x 83 in

• Compact Design: Space-saving "L" shape fits corners efficiently and accommodates two users with a wide range of health-club-level exercises.

• Innovative Features: Includes Easy Glide™ inserts for smooth adjustments and Radial Loc® weight system with incremental weights for precision.

• User-Friendly Adjustments: Self-aligning rollers, handles, and a dual-adjusting back pad ensure proper support and customized body positioning.

• Safety & Range: Patented lat pulldown with wide head clearance and range-of-motion adjustments for bench press, shoulder press, and leg exercises.
